

OUR CALL TO STAKEHOLDERS

- You can reduce harmful effects on the environment by avoiding the use of sunscreens, deodorants, etc., containing compounds harmful to biodiversity and living organisms.
- Behave in accordance with rules when visiting historical, natural, and cultural areas; you can contribute to the transfer of historical, natural, and cultural assets to future generations.
- By supporting the efficient use of natural resources in our facility, you can leave resources for future generations.
- By not buying and selling products and souvenirs made from endangered species, you can protect natural life.
- By choosing eco-friendly transportation options and using public transportation, you can reduce your carbon footprint and support clean air.
- By supporting us in reducing and separating waste, you can help us recycle them instead of throwing them away.

We would be pleased to hear your opinions on our sustainability practices and to receive your suggestions for further improvement.
