THE SPA
AT FAIRMONT DUBAI

The Spa at Fairmont Dubai is a unique destination created to inspire, nourish, and guide guests on a journey to find their personal energy in a location that reflects their cultural and environmental surroundings.

By combining proven methodology for relaxation and rejuvenation, all spa experiences are designed to soothe, pamper, de-stress or invigorate the mind and body depending on each individual and their requirements.

The spa covers over 40,000 square feet and offers two distinct experiences. One being the dedicated spa facility which has a luxurious Romanesque feel throughout, with separate male and female sections, which both feature an opulent Jacuzzi area with Turkish Hammam inspired steam rooms, two relaxing footbaths and a total of eight private treatment rooms and relaxation areas.

The second location offers state of the art health club facilities plus two swimming pools, sunrise and sunset, that capture the sun throughout the day.
