## THE SUMMER SOJOURN

## Spa Treatment of the Quarter The Summer Sojourn Mon-Thur \$125 / Fri-Sun \$165

Can't decide whether to have a massage or a facial? Why not have both!

This "taster spa ritual" is perfect for those looking for a quick spa getaway and combines body relaxation techniques with a refresher facial. Our highly trained therapists will start your journey with a dry brush exfoliation which increases blood flow throughout the body, perfect for post travel recovery and is a natural wellbeing aid. A unique blend of spa products with hints of the season will quench the driest of skin\*.

After a circulation stimulating dry brushing we will hydrate and wrap your feet and will prepare you for a relaxing back and neck massage.

Anti-oxidant argan oil blended with botanical oils will intensively re-hydrate your body in a skin-transforming way. This divine blend of organ oil, lavender and honey along with its rich nutrients melt and are easily absorbed for maximum benefit.

To complete this experience, a gentle cleansing and hydrating refresher facial suitable for all skin types will restore balance. The facial utilizes some of nature's best wild-crafted ingredients. First a moisture-replenishing milk cleanser with pure Neroli oil, Green Tea and Aloe Vera gently removes impurities as it hydrates even the most sensitive skin. A rich moisturizing crème is applied combined with massage techniques to tease your skin back to optimum health.

\*For best results a home care regime of moisturizers, body and bath oils are recommended.
