## Nebny Foundation

Nebny Foundation was formed by a group of young Egyptians who participated in the revolution. They believe the success of the revolution did not stop at taking down the old regime, but they believe the revolution will succeed when Egypt becomes the leading developing country in the world.

The Nebny Foundation recognizes that this post-revolution moment belongs to the nation's young people. Through a youth-led, locally-driven approach, Nebny will promote, educate, enable, and empower youth to actively participate in shaping Egypt's economy. Their approach is to respond to the current economic needs of Egypt's economy and youth by creating employment opportunities which will be complemented by sustainable mechanisms for long-term economic growth.
