Black Diamond HydraFacial

Uniquely designed by Dr. Rakus this treatment begins with a detoxification of the skin using lymphatic drainage to reduce puffiness. This is followed by deep cleansing using botanical products and exfoliating the skin with a very gentle microdermabrasion technique in conjunction with glycolic acids to allow a more comfortable extraction of blocked pores and decongesting the treatment area. The next step is an application of hyaluronic acid, antioxidants and Vitamin E, which is delivered deeply into the skin using the painless vortex infusion tip. Red and blue light is then applied over the treatment area to target congestion and calm the skin. Your skin will feel deeply cleansed, refreshed and rejuvenated.

Duration: 45 minutes

Price: AED 650 per session
