Just Don't Settle for Par!!

In June 1925, the Manoir Richelieu Golf Club was inaugurated by former U.S. President William Howard Taft, a seasonal resident of La Malbaie, Taft was the first person to hit a ball on this challenging and breathtaking golf course. In 2002, the resort completed the construction of an additional 9-hole course and added a panoramic trail leading directly to our Clubhouse offering 360° views off the golf course and the St. Lawrence River.

You now have the chance to make history, like President Taft many years ago, of hitting the golf ball on this magnificent course - a unique and impressive experience. Your evening will start with the scenic views of the majestic St-Lawrence river while you drive your golf cart up to the top of the hill, reaching our Clubhouse. Once on top, we will greet you with our Hole-in-one cocktail and set you off to practice your irons or your putting technique. The evening will continue with our lavish BBQ dinner in the warm atmosphere of our Clubhouse.
