SPIRITS

WHISK(E)Y

The word whisky comes from the Gaelic *uisge beatha*, aqua vitae. Some say the earliest recorded distillation of whisky dates back to the 14th Century.

SINGLEMALT

Highlands

Fruitcake and oak flirt with heather and smoke in Highland Whiskies. Wild seas and impenetrable moorland dominate the landscape, creating a breeding ground for powerful peaty drams, whilst still leaving room for floral, silky elegance.

Oban 14yr	21

Speyside

Home to over half of Scotland's distilleries, Speyside malts are known for being frugal with peat and lavish with nutty fruit flavors. Apple, pear, honey, vanilla and spice all have a part to play in the Speyside Whiskies.

Islands

The versatility of the Islands accommodates both feathery citrus flavors and smoking peaty noses. Between them, Arran, Mull, Jura, Skye and Orkney champion brine, oil, black pepper, heather and honey. For challenging, volcanic drams full of maritime notes that are anything but tame, Island malts are your calling.

Islay

Islay might be the southernmost island of the Inner Hebrides, but it's no less rugged, windswept or barren than its isolated counterparts. Islay malts are pungent with peat, smoke and salinity, revealing their complexity layer after layer.

BOURBON/ RYE

Immigrants from Ireland and Scotland fled to the New World bringing along their beloved spirit, but early American whiskey was mainly distilled by the Dutch and Germans. Originally most whiskey back then was produced from rye until the government started offering incentives to plant corn.

RUM

The spirit of the free and independent, no rules or regulations govern the rum world. It was created as a by-product from sugar, as it is distilled from sugar cane or molasses. Fresh sugar cane is pressed to produce earthy and vegetal cachaça and rhum agricole. Molasses is used to create the more popular sweeter styles of rum.
