

Willow Stream Spa at The Fairmont Sonoma Mission Inn & Spa

Beautiful Sonoma Valley, also known as the Valley of the Moon, is a place of wonder and escape, offering unparalleled opportunities for sightseeing, wine-tasting adventures, unforgettable dining or simply soaking up the famous California sun.

In the midst of wine country's grandeur stands a true treasure: The Fairmont Sonoma Mission Inn & Spa, recently rated among *Travel + Leisure's* top 25 spas. The elegant Spanish Mission-style inn boasts an enviable location atop an ancient thermal mineral spring, flowing from 1,100 feet (335 meters) below and historically revered by Native American tribes for its healing power. The tranquillity and beauty of this environment is echoed throughout the 40,000-square-foot (3,700-square-meter) spa, which offers endless opportunities to find your energy — whether it's relaxing by the inviting fireplace, soaking in our mineral baths and Watsu® pool, or indulging in one of our signature treatments.

At Willow Stream Spa, our belief in the energizing powers of earth and water is reflected in our treatments, from a luxurious fango volcanic ash bath to a pressure-point massage performed on our flotation table. We also cater to the active guest, offering a tension-relieving hot and cold therapeutic massage, a soothing salicylic mud footbath, and more. Our treatments incorporate local products or draw on local traditions, creating an experience that is uniquely Sonoma—and uniquely Willow Stream.

Discover serenity at Willow Stream Spa. And discover your energy.

About Willow Stream Spa

Willow Stream Spas are acclaimed around the world for our focus on finding innovative ways to help guests discover their own energy. Energy makes the difference between living and living well; recharging our energy allows us to flow, rather than fight, through life. That is why energy renewal is our mission.

Each of our spas is designed to reflect the beauty and ambiance of its location and of the hotel in which it is located, so no two are alike. But all of our spas have this in common: They deliver an outstanding experience. Simply being here—away from the chaos of everyday life—relaxes our guests and starts them on their energy journey.

Our spa experiences combine authentic and effective treatments with a place for you to spend time alone or with your friends. Social spaces by the pool, relaxation lounges, steam rooms and saunas, yoga and fitness areas—all are designed to stir our passion for living with abundant energy.

Our name: Willow Stream

We believe these two words reflect our philosophy and our connection to nature's elements.

Willow: The willow represents our deep-rooted authenticity, strong center and flexible spirit.

Stream: The stream represents our energizing journey through life—bending and changing in a peaceful, purposeful manner as it finds its way around obstacles.

Our logo

Our logo is composed of ancient symbols for the world's essential elements: earth, air, fire and water. The willow—wood—is the fifth element. Balancing these elements puts us in sync with nature's equilibrium.
