

# SAVOY

## ROYAL SUITE

Refurbished at a cost of over £2.5 million, The Savoy's Royal Suite is one of the capital's finest and most well-appointed accommodations. Spread over the front of the entire 5th floor, the suite's enfilade arrangement makes the most of the dramatic views over the River Thames. From each of the 8 windows, guests can enjoy a magnificent London vista from Canary Wharf to the Houses of Parliament and beyond with 7 of London's bridges visible.

The elegant proportions and stately procession of rooms complement the sumptuous furnishings and beautiful artwork of the Edwardian interior to create a Royal Suite that is literally fit for a king. Guests enter through a marble foyer, off which opens a beautiful wood-panelled office with inspiring views of London and stylish office equipment. Guests then proceed through to a comfortable sitting room and a separate dining room that seats up to 8 people and has a light, airy interior influenced by English

formal gardens. The master bedroom is positioned adjacent to a large, walk-in dressing room with cedar-lined wardrobes & a spacious, ensuite, his & hers bathroom with a deep, soaking tub and a steam shower.

The suite also includes a service kitchen – ideal for those travelling with a personal chef. For those travelling without staff, a Savoy butler is on hand 24 hours a day exclusively for guests staying in The Royal Suite. Combining the skills of a traditional private butler with the efficiency and knowledge of a 21st century personal assistant, the Savoy butler will ensure seamless, dedicated, personalised service. The latest in entertainment technology is provided by a bespoke multi-room media system.

The suite has a second, generously-proportioned guestroom with ensuite bathroom and stunning London views.

Like a wonderful apartment, The Savoy's Royal Suite will make any stay, however short, truly memorable.
