

Z-Health® with Dr. Paul Ciske

Dr. Ciske received his Ph.D. from the University of Michigan in physiology where he studied the effects of chronic stimulation on muscle regeneration. He is certified by the American College of Sports Medicine as both an Exercise Specialist and Program Director. He has achieved advanced level certifications in Muscle

Activation Techniques (MAT), Resistance Training Specialist (RTS), Z-Health Neurologic and Brain based training, and Proprioceptive Deep Tendon Reflex (PDTR). In addition, he is an accredited Conscious Embodiment/Leadership Embodiment facilitator and an accredited T'ai Chi Chih instructor. Dr. Ciske is the inventor of the patented CISKE Comfort Cushion, an adjustable and versatile cushion used to support the head, neck, and back.

Paul offers 'Neurologic bodywork' based on 3 systems:

1. Muscle Activation Techniques (MAT)
2. Z-Health Brain and Neurologic based training
3. Proprioceptive Deep Tendon Reflex (PDTR)

All three systems effectively work in changing performance and pain in the body by interfacing with the brain and nervous system (e.g., the body's computer and communication system). Because of the speed of the nervous system, changes can be experienced immediately. So whether you are experiencing pain or want to improve performance, working with the nervous system can make changes quickly.

In very simplified terms there are 3 aspects to the nervous system: Input, Interpretation and Decision-making, and Output. By finding the dysfunctional information that is being fed to the brain and changing it, the brain now has new information upon which to make decisions, and in turn can immediately change output in the forms of pain, flexibility, strength, and coordination. All 3 of these systems can be used to accomplish these changes.

Rates:

Single Session, 50 minutes (Hotel/Spa Guests): \$110
Single Session, 50 minutes (Hotel/Spa Guests): \$150

Restorative Body Work

We are privileged at the Club to have several Somatic practitioners on staff who offer Restorative Body Work. These practitioners have decades of expertise in mobilizing soft tissue. These hands-on modalities are used to ameliorate the pain and dysfunction which arise from injuries and chronic musculoskeletal patterning.

The craftsmanship of Restorative Bodywork comes from several lineages and your session may include techniques from one or more of the following: *Structural Integration, Roling, Hendrickson Method, Neuromuscular Therapy, Feldenkrais, Trigger Point, Thai massage and Active Isolated Stretching.*

By integrating these advanced techniques into your current fitness training program or athletic endeavors, Restorative Body work can result in enhanced performance, and a sense of ease and efficiency in your daily active lifestyle

Rates:

Single 55 minute session (Club Members): \$105

Single 55 minute session (Hotel/Spa Guests): \$135

Our Specialty Somatics Trainers:

Caroline Marringa - Caroline is an innovative total Wellness Professional with 30 years of experience. She blends Fit Life coaching with instruction in Cardiovascular Health, total body Strength and Agility training, Core Conditioning,

Massage /Flexibility Therapy and Nutritional Consulting to support her clients in achieving their Personal Best year after year! Caroline has designed and managed fitness centers throughout California, owned and operated several massage/bodywork studios, was an On-Air Fitness Celebrity, Trainer to the Stars, developed Corporate Wellness Programs and trained every body imaginable, from pregnant women to Olympic athletes.

David Parker - David's primary focus is treating problems that have not responded adequately to conventional approaches. He came to the Claremont in 1998 and since then, he has been working on improving body mechanics and reducing injuries through soft tissue mobilization,

flexibility and strength training techniques. David is an avid competitive sailor. He has sailed more than 20,000 miles in the ocean, and has several National Championship wins on his resume. He was the personal therapist for Daniel Day-Lewis during the filming of Last of the Mohicans, has worked extensively with artists, classical musicians and athletes of all types.

Janet Welsh - With a keen eye for postural imbalance and movement efficiency Janet's focus is on agility. Athleticism and finding ways to a fuller range of motion and less pain are key. Creating ways to be and stay active are of foremost

importance. Janet is a dancer, choreographer, and creator of Core Flow Fitness™, a fitness system blending elements of Dance, Pilates, Yoga and Bodywork. She received her MFA in Dance from Mills College in 2000 and her BFA in Dance from Cal Arts in 1982.

Sally Hicks - Sally has been a Somatic practitioner at the Claremont since 2000. After a trip to India in 1995 she was inspired to study Yoga and completed the Advanced Yoga Studies Program with Rodney Yee in 1996 that changed her life. She has

been teaching Pilates since 1997 and studied orthopedic massage in 1999. Sally integrates Pilates, Yoga, cardiovascular and strength training, flexibility and massage in her sessions for all fitness levels.

Yvette Vloeberghs - Yvette has enjoyed working with clients at the Claremont Spa and Fitness center since 1993. As a Pilate's trainer, Yvette combines her knowledge of massage techniques, including Craniosacral therapy, Reflexology, aspects of bio mechanics and

Kinesiology to assist her clients in achieving alignment, flow and balance. She enjoys working with her clients on safe and efficient movements where flexibility, strength and control are considered equal partners.

Sports Performance Coaching with Daniel Kamenetzky, M.S. Kinesiology

A program designed specifically to enhance your overall health and sports performance. This service consists of either a single or a series of consultations.

Program includes:

- ◆ Initial consultation to review training history, injuries, training goals and challenges
- ◆ Create an innovative strategy to improve your performance and help you achieve your goals
- ◆ Body composition
- ◆ In-depth bio mechanical analysis including filming
- ◆ Nutritional strategy
- ◆ Conditional capacity (strength, speed, endurance)

Daniel Kamenetzky brings nearly 30 years of experience as a sports methodologist with expertise in sport's biomechanics, testing, training design and sports related injuries rehabilitation. In addition to his studies in biology, physical education and kinesiology, he has an extensive history coaching

athletes form different sports as baseball, baseball, football, soccer, rugby, track & field, tennis and swimming among others. Daniel also works closely with coaches of different sports as a consultant providing methodological expertise, testing and performance data analysis to support the training's strategic design. He is also a very enthusiastic educator and participates regularly as a speaker in sports related meetings.
