*Please note that due to the current rapidly changing situation, the schedules mentioned may be subject to change without notice.

FAQ – FAIRMONT LE CHÂTEAU FRONTENAC

How are you ensuring that the hotels safely reopen?

We have a long-standing tradition of setting new benchmarks for service excellence in our industry and today is no different. In response to the COVID-19 pandemic, we have partnered with top experts to implement new standards of safety and enhanced operational protocols and procedures which are among the most stringent in the hospitality industry.

At each touchpoint along the guest journey, extensive measures are being taken to protect our guests and employees, including physical distancing; mandatory screening for all guests and employees, which may include a temperature check; masks provided to guests and worn by all employees; a 48-hour “settling period” for occupied rooms post-departure; increased frequency of cleaning & disinfecting, with a focus on high-touch points; and continued use of EPA registered disinfecting chemicals, proven effective in preventing the transmission of COVID-19. Hands-on training for all employees, a dedicated on-property rollout committee and a formal audit program, validated under the new global ALLSAFE Cleanliness label, ensure initial and continued compliance.

Our new operational standards have been developed and vetted by a team of expert advisors to ensure maximum efficacy in preventing the spread of all viruses and pathogens, including COVID-19, with oversight by Bureau Veritas, a world leader in testing, inspections and certification; Dr. Amesh Adalja, Senior Scholar at the Johns Hopkins University Center for Health Security & fellow with the Infectious Diseases Society of America; and Ruth Petran, Ph.D., CFS, Senior Corporate Scientist, Food Safety and Public Health, for Ecolab, global leaders in cleaning and hygiene, and trusted advisors to the CDC.

What safety precautions are you taking in the public spaces?

Safety precautions include, but are not limited to : mandatory screening for all guests and employees upon arrival, which may include a temperature check; mandatory masks for all employees; hand sanitizer stations in key areas throughout hotel; queues managed, and maximum occupancies updated to facilitate physical distancing; signage and markers communicating health & safety protocols in public spaces; increased frequency of cleaning and disinfecting with EPA-registered chemicals, proven effective in preventing the transmission of COVID-19, with special attention to high-touch points; cleaning time sheets displayed

What adjustments are being made to the guest room?

Adjustment include, but are not limited to : reorganization of items in the rooms, safety items available upon request, and disinfected between each use (new items provided where possible); 48 hour “resting period” between guest stays, followed by cleaning and disinfection with EPA-registered chemicals, proven

effective in preventing the transmission of COVID-19; stayover housekeeping service every third day and wellness checks daily; no housekeeping service while guest is in room

What safety precautions are you taking in the restaurants?

Precautions include, but are not limited to : welcome greeter offers hand sanitizer and mask upon arrival, with envelope to place mask in while eating; mandatory screening for all diners, which may include a temperature check; seating to promote physical distancing; shift to disposable menus and/or disinfection between each use; change of items / disinfection of all touchpoints on table between diners; increased frequency of cleaning and disinfecting for both front and back of house with EPA-registered chemicals, proven effective in preventing the transmission of COVID-19; masks & gloves for all restaurant workers, front and back of house

What happens if a guest fails a temperature check?

Guests who display a higher temperature at the time of screening will be given the option to return home; however if that isn't feasible, the hotel will deploy self-isolation protocols for the guest and their traveling companions.

Are you monitoring employee health?

We are closely monitoring the wellbeing of our employees. Any employee with relevant symptoms must not come to work, and are required to contact their health care professional for assessment and results before returning. Any employee who displays a higher temperature at the time of screening will be asked to return home, closely monitor their symptoms and connect with their Talent & Culture team to determine when it is safe to return to work.

Have there been any confirmed COVID-19 cases on property?

We do not currently have any confirmed COVID-19 cases among our employees or guests. Should any concerns arise, we have a detailed set of operating procedures to follow in the event of a suspected case of any contagious disease, and our team is trained to manage such situations. We also have a global network of experts supporting our team and are in touch regularly with local health authorities who will inform our decisions in the event of a confirmed diagnosis.

What is your cancellation policy should I no longer be able to stay?

Guests who booked fully refundable rates can cancel or modify their reservations without penalties on all.accor.com. Guests who booked non-flexible rates directly with Accor and planned to stay in one of our hotels prior to and inclusive of June 30th, 2020 may modify their reservation for a later date without any modification fees (subject to availability and applicable rates and conditions) by contacting the hotel directly or requesting a credit voucher for the full amount of the booking value for use at a future date at the same hotel. For guests who booked through a travel agent, online booking platform or other third parties, please contact your booking provider directly for assistance.

For more details on the new standards being implemented throughout the guest journey, visit ALLStayWell.com.
