WILDLIFE AWARENESS

The chance to observe wild animals as they go about their natural lives is one of the most fascinating experiences that our mountain national parks have to offer. Along with this opportunity, however, comes the responsibility to treat wild animals with the respect they deserve. Drive with care and be prepared to avoid a collision at all times. Be especially cautious at dusk and dawn, when many animals are most active, and visibility is poor.

They may sometimes appear unconcerned by our presence, but all park animals are unpredictable and potentially dangerous. Do not approach or entice wildlife. Use binoculars or a telephoto lens instead. Remain at least:

- 100 metres (10 bus lengths) away from bears, cougars and wolves
- 30 metres (3 bus lengths) away from elk, deer, sheep, goats and moose
